We'll head up the Great Northern towards Meekatharra, then head east towards Wiluna. Fill & fuel up, then north on the Canning Stock Route until Georgia Bore or Well 22. From here we leave the CSR and head west towards Parngurr Aboriginal Community to re-fuel, re-stock & rest. From there we'll visit Rudall Rivers Desert Queens Baths & more. Now towards Newman direct or via Nullagine Gorge. A night around Newman, then home with a camp along the way. 14 days on this trip should allow us to take in all the sights with plenty of time to relax. I'd expect to travel between 8am - 4pm, so there should be plenty of time at camp to recuperate.
