*There are quite a few old & nicely restored homesteads to visit along the old Baladonia track. At Israelite Bay we'll visit the old Telegraph Station and Point Malcolm, around 30 km south of the bay. From there north towards Bilbunya Dunes, the biggest moving sand dunes in the southern hemisphere (so I'm told ☺)*

*Next up the Wylie scarp and north towards Eyre Hwy which brings us back towards Norseman and beyond depending on time & situation. I'd suggest to leave camp in the morning around 0800 so we can find camp around 1600.*
